If you are planning on attending the School Bus Recertification class, you must be registered through your AIM account. (You should already have an AIM account through your local school system.) This process involves completing an application and your local transportation supervisor approving it. If you have any questions, contact the Transportation office for the school system where you are employed. If you do not register through AIM, you will not be allowed in the class. You can only receive credit for this class through the AIM program.
